

## Assembly Instruction for the Storage Box

### Scope of delivery:

- 1x Storage Box
- 1x Velcro

### Assembly Notes:

We recommend mounting the box with the seat frame of the passenger seat. Van-Zubehör.de assumes no responsibility for improper assembly. If you are unsure, please write us an email - we will be happy to help and advise you.

Mail: [info@van-zubehoer.de](mailto:info@van-zubehoer.de)

### Assembly:

1. Move the front passenger seat upward. Place the storage box between the passenger seat and the handbrake lever.

2. Depending on the vehicle and the shape of the seat console, determine the optimum height for attaching the fastening material. The seat console should be as parallel as possible to the storage box on this surface.
3. Then remove the storage box again. Clean and degrease the adhesive surfaces. Attach the fastening material to the storage box and seat console.
4. Put in the storage box again.
5. Go and have fun. 😊
