## 1. WHO WE ARE

Our three brands **Amutec**, **Mobert** and **SCAE** completely cover the wide range of bag packaging currently produced on the market.

The In.Pack Machinery group's story goes back to 1956. It was born out of a group of entrepreneurs' passion and desire to find the best solutions for their clients. Our group's name reflects our constant and continuous drive towards technological and product innovation which matches the constant evolution of materials (bio-compostable, recycled and mono-materials).
