Consider asking your employer to contribute to your membership fee

The Salon is the expert partner for fostering and growing female talent.

Diversity & inclusivity are increasingly important topics to employers. They are always looking for ways to attract, retain and grow their diverse & female talent. Only 17% of c-level jobs is held by women today, and that needs to change. With our exclusive access to a female peer network, growth hub & support system, The Salon offers women a community & training program which will support them to reach their professional goals.

The Salon offers an alternative work & eventspace. The impact of Covid-19 has changed the way many of us work. It may even have limited your employer's ability to welcome employees into their offices, due to health & safety risks. Our beautiful & fully services space is a flexible alternative to work, meet or celebrate.

We offer companies a standard 20% discount on the membership fee, when they buy 5 or more memberships for their employees. We are happy to work with employers on finding ways to tailor memberships to suit your company's specific needs.
