The trouble I have is I dont know what make of carburettor I have. I am led to believe it is either a "Nikki" or a "Ruixing" Hopefully some very wise kind person could help me identify which carburettor I have. Many thanks in advance. Stay safe! Here is a picture of the carburettor Last edited: Apr 24, 2020 Apr 23, 2020 / Help to identify my B&S Engine carburettor "Nikki" or "Ruixing" Looks like a Walbro but should say Walbro on the carb. All the carbs used on the Briggs engines normally have the same molded into the carb body. Also if you clean the dirt off of the carb body and should say LMT if Walbro. Also Nikki normally uses two JIS screws to mount the fuel bowl, as opposed to the fuel solenoid holding the bowl on with the Walbro Apr 23, 2020 / Help to identify my B&S Engine carburettor "Nikki" or "Ruixing" To me its looks more like a Ruixing carburetor but the model and type posted doesn't come up at Briggs. gilomohovalura STARTECH Thanks for your reply...I had written thte wrong engine code down...(my bad) thanks for spotting that. I have ammended the OP. The Engine code is 31Q 507 0002 H1 Thanks again Last edited: Apr 24, 2020 Apr 24, 2020 / Help to identify my B&S Engine carburettor "Nikki" or "Ruixing" Ruixing carb. Same rules apply since Nikki has two JIS screws that hold the fuel bowl on instead of the Ruixing or Walbro has the fuel solenoid that bolts the fuel bowl to the carb. maxakejo Apr 24, 2020 / Help to identify my B&S Engine carburettor "Nikki" or "Ruixing" 594593 CARBURETOR(Ruixing)(Gravity Feed)-Used After Code Date 15112900 594886 KIT, Carburetor Overhaul-(Ruixing) -Used After Code Date 15112900 TC-Motor Carburetor Rebuild Kit For Briggs & Stratton Master Overhaul For Nikki Carb 796184 698787 790032 C-T-S Carburetor Overhaul Rebuild Kit Replaces Briggs & Stratton 394693 291763 295938 398235 Product Description & Features: Replaces BRIGGS & STRATTON 394693 291763 295938 398235...
