

Fun day creating art:
Experimental abstract painting –workshop

Fun and relaxing day. Reflecting Sicilian landscape, colors and details from nature as inspiration we create a piece of abstract painting. While creating and enjoying Sicilian views we learn some experimental painting techniques in "hands-on" art workshop. When creating art, we can use many senses, of course visual, but also smell, voice and touch, keeping in mind that moments doing art are good for your health and wellbeing.

No need to have any experience of art – beginners, experienced and all ages welcome. Workshop in English.

You can take home the painting you have created as a very personal souvenir and memory of your time in Sicily.

3 hours

Minimum 2 persons

50 e/pers, (all materials and tools including)
