I created a free sun printable that encourages toddlers and preschoolers to recognize the color yellow while creating a collage. Scroll down to find the free download! Skills Built: Color recogniton Fine motor Supplies Needed: Small yellow items Glue Paintbrush Sun printable (scroll down to find link to download) Setting Up this Activity Works: Talk with the children about the color yellow. Have a few different colored pieces and ask them what the colors are. Pull the yellow piece out and explain that today the focus is on the color yellow sun, invite the children to remove the yellow pieces from the container and press them on to the sun.

This activity not only works on color recognition, but it's also a wonderful way to strengthen fine motor skills. Each time the children retrieve a small piece from the container, they are pinching it. As they place it on the sun, they are using their fingers to press the pieces. How to Expand this Activity: Provide a variety of colors rather than just yellow.

To build pincher strength, use small stickers.

Have your little ones neel and stick one stickers.

Inside: Learning colors will toddiers and preschoolers to more fun coloring pages on to need to be compliant to mention less strings fun will to mention less strings fun will be color yellow will be color yellow items glue and a brush. How this Activity Works: Talk with the color yellow. Have a few different colored pieces and ask them what the color yellow.

After brushing or squeezing glue on top of the yellow sun, invite the children to remove the yellow pieces from the container, they are pinching it. As they place it on the sun, they are using their fingers to press the pieces. How to Expand this Activity: Provide a variety of colors rather than just yellow. Invite the children to find the yellow pieces and separate them from the rest before gluing them on to the sun. Add counting. Turn this into a counting game by having numbers written on pieces of paper or using wooden numbers. As a number is placed on the table, ask the child to identify it and then put that many pieces onto the sun. At first this can be done without the glue so that the pieces can be removed to try another number. Eventually the children can glue all the pieces onto the sun. Make it and take it home the same day. If this is something to take home the same day, replace the glue with glue sticks. Use lighter weight materials (paper, cellophane, etc.) that will stick easily. Click on the photo below for frems gards a topping counting Activities on the printable store the glue with glue with
