QUE:MONO started as a birthday present. An acoustic gift from musicians for a musician! What was planned as a spontaneous one-off session gradually developed into an acoustic gift for all people.

The resulting debut album "Rabbits Hole" moves musically in a spectrum between electro, independent and rock.

Diverse timbres create the musical cosmos of this cinematic-looking complete work in a multifaceted and atmospheric way.

The pointed, partly underlining and partly screeching singing guitars are based on a pulse of rolling ethno groove and dark-growling bass lines. The hypnotically floating vocals are enthroned above everything.

Welcome to the poetic world of sounds! A brilliant 60-minute musical glow: here is delivered with experimentation and catchiness.
