IF WATER SHOULD BE NOT JUST PURE BUT ALSO ALIVE, KICKING AND REFRESHING...

Then you have come to the right place at H2Optimizer! With our Vital series water filters + water vitalizer in one, you not only have water of the purest kind, but also with the vibrancy of pure natural spring water in the entire house or office, practice, B&B, catering facility, etc. The unique and patented filter technology of the Aquaphor Viking water filters, combined with the innovative water optimizer from EWO, assure you of drinking and tap water of absolute top quality. Despite its top performance, this Vital combi system is very compact so that there is always a corner near the water meter where it can be installed.

Features **Aquaphor Viking water filter:**

- Robust stainless steel filter housing instead of plastic
- A 5-micron dual-stage filter element as standard
- Patented Aqualen™ filter technology, removes all heavy metals (ion exchange)
- Filter material with micro-silver particles for an antibacterial effect
- Removes chemicals, pesticides, PFAS, etc.
- Removes active residues present in tap water, such as from medicines, contrast media from radiological research
- Filter elements are fully recyclable
- Easy to maintain, long life

Features **EWO Classic water optimizer:**

Just as in nature the water bubbles and bubbles over stones and rocks, in the EWO method the water flow is guided over the built-in double spiral (vortex vortex).

The housing of the EWO devices is made of high-quality stainless steel (duplex steel 1.4462). This stainless steel is very easy to magnetize. The water now flows through the integrated natural magnetic field.

The information water in the EWO devices, consisting of an energetic filling of the purest spring water enriched with a special combination of high-quality additives, acts on the water flowing past, so that this tap water regains its natural resonance and vitality via information transfer.
