New Contour Finish – A Delight for the Senses

The beauty of wood is enhanced by the design of the natural wood grain. Imagine further enhancing that wood grain so it becomes both a visual and tactile experience for the senses. Introducing the new 'Contour' finish by Swissmar.

Our new finishing process creates the beauty of weathered barn wood, with a smooth contoured finish.

We have chosen our most popular mill designs to offer a select assortment of Mills with this unique 'Contour' finish.

Culinary Collection

Tradition personified! Turned from quality European beech wood, these Mills suit any décor. Compare to the finest European brands and witness the unrivalled results; remarkable coarse to fine Pepper output and powdery fine salt that virtually dissolves into your culinary creations.

It's in the details!

Spice specific mechanisms for pepper and salt ensure the perfect grind every time

Unique Control Adjustment Knob™, allows for precise grind adjustment without the worry of the knob coming loose on the coarsest setting EZfill™ ring for easy filling

Distinctive red mechanism casing makes a statement, identifying these mills as unmistakably Swissmar

Pepper Mechanism

Made of carbon steel, this spice specific mechanism features a two stage grinding system for consistent results with every use. Lifetime warranty

Salt Mechanism

Made of corrosion proof durable ceramic, the mechanism is adjustable from coarse to remarkably powder fine. Yielding incredible output. Lifetime warranty

Salt Keeper – The New Must-Have

In addition to adding a decorative touch to your kitchen, these beautiful Italian olive wood salt keepers will ensure salt is accessible while cooking. There is no need to fiddle with a salt mill or shaker in the midst of the culinary process, simply open the lid and reach for a pinch. To prevent moisture from dampening the salt, be sure the lid is used.

It may well be one of the simplest tools in your culinary arsenal, but to get the most flavor out of your herbs and spices, you should abandon the electric grinder or food processor in favor of a simple ancient device, one of the oldest in the world, the mortar and pestle.

Whether you're getting serious about making curry paste or simply mashing up some herbs to spread over a roast chicken, a mortar and pestle makes it better.

Say Cheese

Entertaining with cheese! Imagine an assortment of ripe and delicious cheeses presented on a beautiful slate board, paired with cheese knives specifically designed for cutting and serving cheese...that's true Swissmar style.

Chef's Tip – Serving Cheese

When putting together a cheese board, to be served before or after dinner, remember to limit your selection to no more than five different cheeses. Serve cheeses of different sizes, shapes, and flavor or texture profiles to create diversity and add interest to your cheese board. Strong, pungent cheeses shouldn't be placed next to delicately flavored cheeses, and try to have individual knives for each cheese.

Don't just think Cheese, think Charcuterie!

Whether you're set-up to enjoy a crisp Fall afternoon/evening on the patio, or gathered around the table inside, a well-appointed charcuterie platter will dazzle guests. In addition to a number of wood and slate serving/cutting boards, Swissmar has the perfect knife for cutting and serving every type of cheese. Don't forget we also have traditional Swiss Girolle for making those amazing (and delicious) cheese curls.

Tips on building the perfect board:

MEAT... If it's cured, it's on the board! Prosciutto, Pancetta, Genoa, Coppa, Salami, Bresaola, Chorizo — use all of them! When it comes to **CHEESE** ... think variety. A sharp aged Gouda, Emmental, an earthy Camembert or Brie and a pungent Blue cheese will have all your bases covered.

PICKLES, cheese and meat are best friends. Garlic dills ... pickled onions, asparagus, beans, peppers ... and **OLIVES**? Always.

Now for the **FRUITS** ... Have you ever tried blue cheese with pears or melons with prosciutto? Delicious! A thinly-sliced Honeycrisp apple or pear, a handful of dried cranberries, dates or figs - anything goes ... even nuts and fresh honeycomb!!!

Something **CRUNCHIE**, like a sliced Baguette is as simple as it gets, but adding crostini, bread sticks or crackers is the way to go!

Slate

In addition to their natural beauty, slate boards are possibly the best choice for serving.

- ✓ Non-porous which means they do not absorb flavors or smells from the surrounding environment
- ✓ Easy to maintain, since it doesn't absorb fats or bacteria from food or cheese on its surface
- ✓ To clean: a standard rub and scrub is all that is needed, while a few dabs of food safe mineral oil will help bring out a nice shine and lustre
- ✓ Also make a great trivet in a pinch

A Swiss Tradition... and so much more.

Originating in Switzerland, raclette (the dish), is one of Switzerland's best-loved national fares. Its origin dates back hundreds of years, to when shepherds (Swiss cowboys) would move their herds high into the mountains for grazing in the warm summer months. Supplies would be limited to what could be carried and consisted of basics, such as potatoes, flour, perhaps some pickled gherkins, a round of cheese produced from the milk of their beloved cows, and of course, a good Swiss wine. Long, lonely evenings were passed in front of a campfire, and a simple and primitive tradition was born: A wheel of cheese was cut in half and placed on a rock near the fire's edge. The cheese slowly bubbled and just before dripping into the fire, the wheel was lifted from its perch and scraped onto a waiting plate of potatoes and pickles - the word "Raclette" comes from the French word "racler" meaning "to scrape off". From these humble origins, the Raclette tradition was born.

Oil & Broth Fondue Fun Fact

Sometime after World War II, Swiss cooks began cooking meat in hot oil as an alternative to their beloved cheese fondue — a kind of French-fried meat supper. It became known as fondue Bourguignonne because the French-speaking Swiss are descended from the Burgundians.

Tip: The cooking oil should be heated in the metal fondue pot on top of the kitchen stove. The optimum temperature for frying the meat is 375°F, although it can be cooked properly down to 360°F. A deep-frying thermometer is an essential tool for telling when the oil has reached the frying temperature.

All oil and broth fondue sets include stainless steel/copper pot, 6 forks, rechaud, spatter ring, fondue burner and recipe card. See page 40/41 for accessories.

Chocolate Fondue

Chocolate fondue was created by a Swiss Chef living in New York in the 1960s, and is the perfect way to stir up a dinner party. It is practically effortless to prepare and your guests can participate and enjoy a fun and delicious chocolate dessert at a relaxed pace.

Tips for Chocolate Fondue

Chocolate should be melted in the top of a double boiler, over gently simmering water, never over direct heat. You can also microwave it, uncovered, on medium, stirring frequently. If you are using cream, ensure that it is warm when adding it to the chocolate. If the chocolate clumps together, try stirring in unsalted butter or vegetable oil one teaspoon at a time, until the chocolate becomes smooth again.

Wine & BAR ACCESSORIES

Got left over wine? Preserve it with the Epivac vacuum pump!

This clever tool removes air from the bottle, preventing further fermentation and preserves your wine for days.

Preserving Wine

Remove air from the bottle, preventing further fermentation and preserve your wine for days.

1. Push pump valve to wine position (Dual function pumps only)
2. Securely place and completely insert wine stopper in bottle
3. Hold pump gently in stopper and with other hand, pump 10-15 times (stop pumping when firm resistance is felt)
4. Remove pump only and store bottle in an upright position
5. To release stopper, tilt valve stem inside stopper. Remove stopper from bottle and serve

Preserving Champagne

Pump air into the bottle, preventing the dissipation of the bubbles and preserve your champagne for days.

1. Pull pump valve to champagne position (Dual function pumps only)
2. Unscrew stopper from sleeve. Slide sleeve over neck of champagne bottle. Screw stopper into sleeve. Do not overtighten
3. Hold pump gently in stopper and with other hand, pump 10-15 times (stop pumping when firm resistance is felt)
4. Remove pump only and store bottle in an upright position
5. To release stopper, unscrew slowly.

Shucker Paddy

OYSTER GEAR

A collection of products designed exclusively in collaboration with Patrick McMurray BPHE, World Champion oyster shucker and Guinness Record Holder for 39 oysters opened in one minute.

The Shucker Paddy Original Oyster Knife is the result of three years experimentation and 50 prototypes. The knife's handle fits the palm like a pistol; a 3 inch notched stainless-steel blade is where the pistol's barrel would be, with sharpened edges top and bottom. Traditional oyster knives have only one axis, running straight down the blade, but the Shucker Paddy has two - one down the blade, the other down the angled pistol grip. That dual axis gives the knife a lot more leverage and less force required. The result, an Oyster Knife that will let you, Professional or at home, "Shuck with Ease".

Unique Design

The unique ergo-dynamic Dual Axis Pistol Grip design keeps the forearm in alignment with the blade for maximum transfer of power. Dual axis lever = less force to open oysters.

Safety

Integrated finger guard and non-slip handle offers superior protection when shucking. Light weight high-impact injection moulded non-slip PP handle provides highest in sanitary qualification.

Versatility

Ambidextrous – Suitable for left or right handed.

How to Shuck with Shucker Paddy:

Place Oyster cup-side down, exposing on the hinge. Hold the Oyster firmly so it does not move.

Insert the tip of the knife into the hinge of the oyster, with a slight twisting motion (like turning a key) - until the knife sets 1/4" into the hinge. Once the knife is set, a light 1/4 turn of the handle, will pop the hinge.

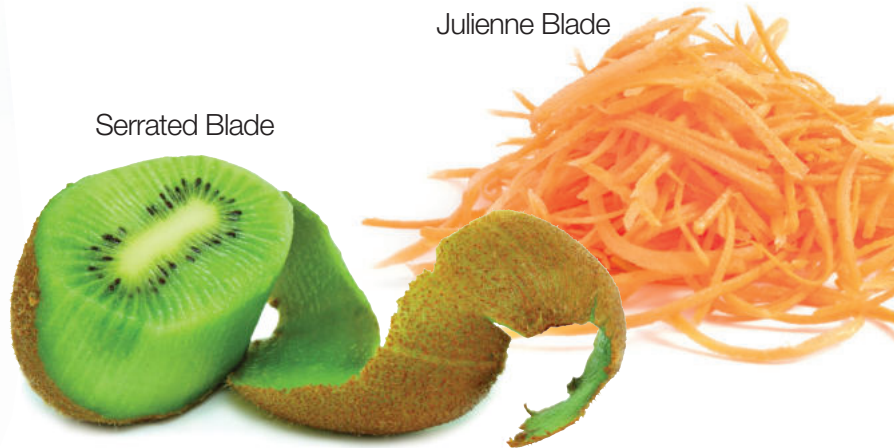

Pry the top shell up, and scrape the top adductor muscle - 2/3 of the way up from the hinge, on the right of the middle of the oyster - to release the top shell.

Locate the lower adductor muscle. Insert blade of knife under this muscle, and scrape loose from bottom shell.

Swissmar Straight Handle Peelers

In our ongoing quest to revolutionize the peeler category, we are pleased to introduce an assortment of peelers, each featuring our newly designed straight handle. Ergonomically designed and made of a durable and light-weight ABS+PC resin blend of materials, this handle is truly unique. For improved grip and comfort, we added a soft rubber accent and to complete the functionality, we also added a stainless steel blemish remover tip to get rid of imperfections from any vegetables with ease.

YOU HAVE TO PEEL IT TO BELIEVE IT!

SwissCurve™ Straight Peeler

The curved design of the patented blade removes peels by directing them away from what you are peeling, while the non-slip ergonomically designed handle fits comfortably in your hand.
