# How do we play the korfbal

- we play this sport. We were with two professional players who taught us how to play, what was the objective, techniques, serves and everything basic of the game. First we made a warming of passes, of serves, of defense also had games to play, then we played korfbal games and finally the two boys showed us how they play a few professionals after they measured the time of boys and girls who came out playing with the professionals for see who lasted the longest with a professional. Everything we did was very successful and we liked that this sport taught us to be professional.

We have played  
korfbal with the  
Spanish and Dutch  
students in the  
Netherlands
