DESIGN

The entire Seafine range is born of the same values: each yacht features wide interior spaces, an amazing quantity of natural light and outstanding design with German engineering inside. As for these trademarks, the F430 displays the true spirit of Seafine.

SINGULAR DESIGN. MULTIPLE THRILLS.

You have everything you heart desires on the flybridge. But because the allure of a true Sealeine lies in its variety of options, the F430 also offers alternative spaces of leisure for you and your family. The cockpit below the flybridge casts shade and can be equipped with an additional outdoor barbecue. The bow awaits you with a generous sun bungee. It's always your choice what area suits your mood and your occasion.

Spacious sun lounges on the bow feature an adjustable back and invite you to relax under the blue skies anytime of the day. The exceptional architecture of Seafine yachts ensures that you can daydream with full peace of mind. The bulwark, featuring an unparalleled height, guarantees deep relaxation in any situation – even at times of sportier driving.

The Sealine engineers have designed the bathing platform to be more than just another extra. It is the final step to enjoying perfect independence. A private beach which you can take with you. Out to the open sea. Into a secluded bay. For this reason, the bathing platform on the Sealine i430 has everything your heart could desire. Teak flooring. Hydraulic operation. And a retractable ladder that automatically adapts to the lowered platform.

BLUE LAGOON

When it's time to move into the shade, you can comfortably take a seat in the covered cockpit. With the lighting and sound system integrated into the ceiling, you can design the ambience to suit your every desire. To experience the highest feeling of life on deck, you now only need to do one thing: open up the inside to the outside, creating one relaxation area for enjoying life across one level!

Enjoy the seclusion and privacy that the ocean provides during the day – and then gather together with guests in the evening. Thanks to the layout of the seating, the mood lighting, the inspiring design, your Sealine F430 becomes an irresistible location for coming together. Whether you are meeting up with friends again or finding new ones in the harbour – everyone will feel privileged to come aboard your yacht. For a sundowner. For dinner. For a party.

A FIRST IN CLASS: 3 DOUBLE CABINS ACROSS 43 FEET

With the Seafine F430, voyages are so luxurious that you will want to share them with others. As the F430 is the world's first 43-foot yacht which can be outfitted with three double cabins on request, up to six people can enjoy a unique experience.

Each element in the saloon exudes harmonious elegance. Everywhere you look, you see premium materials crafted to perfection. Each detail is part of the aesthetic bigger picture. Even the helm station is a designer piece of furniture – with instruments which seamlessly blend into the ambience. The double helm chair is adjustable in height to enable most comfortable driving. When turned 90 degrees, it becomes a natural part of the living space.

Is cooking a chore or a pleasure? The difference is in the atmosphere. Which is why the galley of the Seeline E420 appears as a designer kitchen in an urban loft – with a 360° view of the water! Stylish strips of lighting and high-gloss working surfaces create an aesthetic space in which you can conjure up several courses with more and more joy every time.

You want to enjoy life 24 hours a day. Even in your sleep. Which is only possible in cabins that cater for all your senses. With colours that inspire relaxation. With materials that provide pure pleasure. If you appreciate the aesthetics of high-class designer hotels, you will feel right at home on your Sealine F430. As an option, the lower deck comes with three double cabins, individually designed to feature the owner's personal mark. Equipped with full-sized beds and views of the ocean. The 43-foot class has been redefined.

The bathroom is the space where you start your day. It should be a room that puts you in a positive mood. Where you can recharge and rejuvenate. Like the composition of pure fittings, fine woods, exotic natural stone and gentle lighting does on board the Sealine F430. As the yacht owner, your morning begins even better thanks to your own ensuite bathroom.

SEALINE F430

When you think of motor yachts, does a thrilling driving experience also come to mind? Then opt for the Sealine F430 – with its Volvo Penta IPS engines. Even the standard engines with 760 hp accelerate the yacht up to 28 knots. If you ever wanted to experience just how agile 43 feet can be, we boost the performance of your Sealine to 32 knots.

LAMINATED POWER GRID

The hull reinforcements of the Sealine F430 are elaborately laminated, giving you the advantages of a high-strength yacht with a reduced weight.

The Sealine F430 hull has a deep V shape. This means the Sealine is exceptionally stable in the water, making for more comfortable boating.

UPRIGHT STEM

The vertical bow with its curved foot pierces the waves elegantly and efficiently. This, in turn, results in more comfort and more boating pleasure.

GERMAN PRECISION AND PASSION FOR THE SEA. THAT'S WHAT A SEALINE IS MADE OF.

In 2013, the Sealine brand found a worthy new home on the German Baltic coast. At our shipyard in Greifswald we have perfected the interplay between state-of-the-art manufacturing techniques and skilled employees. The outstanding people in our team perform their work with enormous experience, a deep understanding of the customer and great dedication. In addition, we are thrilled to cooperate with our British partner Bill Dixon. Working closely with our concept design team, the award-winning naval architect is creating a new range of innovative Sealine models. Above all, we believe that what holds true for the experienced boater, also holds true for us as boat builders: Beyond the individual skill, there is something which genuinely binds all of us at Sealine: A great passion for the sea.
