Exchange Germany&England

(10th 02.2019-15th 02.2019 & 12th 05.2019-17th 05. 2019)

Monday, 11th february 2019

That was the first day when I met the exchange partners of the german students. Because we had more german than english students, I had not had an exchange partner. We met at school at 8am and I saw the english students for the first time. It was really exiting for me, even if I had not had an exchange partner. In the first lesson the german students went around in the school and tried to show our school to the english students. In the second and third lesson, the english students had the chance to take part in our regular lessons. After that, we met the others and we were set in groups for a rallye in the mosts german students hometown, Übach-Palenberg. Then, as we have finished the rallye, we were allowed to go home because the next time we met was at 4pm in school for playing Ultimate Frisbee. At the beginning it was a bit hard making the english students familiar with the rules of ultimate frisbee but it was kinda funny while playing it and I really enjoyed it.

Tuesday, 12th february 2019

The next day we met at 8am at school for going to the trainstation together where we drove to Aachen. It was february, so it was pretty cold and the sightseeing tour took one hour. I think for the english students it was very exciting to get to know a german city like Aachen. After the tour we had freetime for about an hour and after that, we went to a restaurant to get lunch. Besides that we build 4 groups. Two of them went to the escape room and the other two groups had freetime in the city of Aachen. Later we switched.

After everybody has finished, we drove back to Übach-Palenberg where we met at Eric's. We had much fun together while talking and playing games.

Wednesday, 13th february 2019

On Wednesday we drove with a bus to the netherlands to meet the spanish and netherland students who took part in the project as well. There, we primarily got introduced to the following hours we spend together and then, we went ice-skating. At the beginning it was very difficult to drive with these shoes because they were very slippery but after a while it became much easier.

We had not spoke quite much with the spanish and netherland students at the beginning but after lunch , we played floorball and football with them in mixed teams, so at least we had to talk to them and I found out that the most of them seemed to be really nice people. I had much fun while playing floorball and it was better than I expected first. But you can not undervalue that sport because it is very exhausting.

All in all it was a really adventurous and great day.

This day was one of the most exciting ones because we drove with the train to cologne! I have not been there for a

long time, so I only know the place where the cathedrale is and the shopping mall. First, we made a sightseeing tour with a teacher of our school who lives there. I saw places and sides of cologne which I have not seen before, so it was not only exciting for the english students, also for me. After the tour of cologne, we went into the popular cathedrale which is really beautiful. After that, we had much freetime, so the most of us went shopping or to McDonalds to get lunch. We met at about 4 or 5pm to take the train back to Übach-Palenberg. There, we met at Eric's another time and it was really funny because we talked a lot and we got along with each other very well.

That was the last day. On this day, we met at school at 8am and talked about the last week and the sports which we did. At the end of the material things, we had time for half an hour to spend the last minutes with the english students, before they finally had to left germany.

All in all the week was more great than I expected and I could not wait until I finally visit England in may.

Finally! On this day I had to get up very early in the morning to go to the airport in the netherlands to fly to england. I was more than excited and I was very greatful because I was

allowed to stay with Hannah and Brianna at Nadja's, the exchange partner of Brianna. The flight was good and nobody got hurt

As we arrived in England at the exchange partner's school, we were welcomed by Nadja and her Dutch father. We drove to their house and got to know the rest of her family. After we packed our things, ate breakfast and talked with Nadja and her mum, we played with the dogs of Nadja and after a while, we went out and Nadja showed us a part of Great Chesterford before we had a barbecue with the others which was really cool. At the end of the day, we watched a movie and finally went to bed

We had to get up at 7am to get ready for the school which was in Newport. It was not so easy to know how to dress for school because we had not an uniform like everybody in

school. The breakfast was really delicious because we ate pancakes with some fruits.

Nadja and her sister Robin drove with the bus to school and Nina, Nadja's mother drove Hannah, Brianna and me to school because her car only had four seats. It was very new for me in school because everybody looked to the german people and talked to us. At the beginning the english teacher showed us the school and everything I can say is that the school is very beautiful, especially the fields outside where the students could do sport. After we had some lessons, we had to change because we played cricket. We first did some simple exercises to get to know how to play cricket.

After playing cricket we had lunch break and some of us bought food. Then, we went to a field where the most students of the school were. Next, we had again some lessons. Hannah, Brianna, Ricarda and me had history class by a teacher who seemed to be very strict. During class we watched a documentary about lego. After school we drove back home and met our friend Leoni with her exchange partner Jessica. We ate a delicious meal and then, we made marshmallows.

On Tuesday we drove to Cambridge by train. Unhappily only the german students because our exchange partners had to be in school. At the trainstation we only had to wait a few minutes before the train came with which we drove to Cambridge.

In Cambridge we first had to walk a little before we met a lady who made a sightseeing tour with us. We saw different places of Cambridge where we took some photos.

After the tour we had one to two hours to walk around in Cambridge in groups of 4 persons. Furthermore we later went bowling where we met our exchange partners. Even if I was really bad while playing, I enjoyed it. In the evening we drove to Berden where we met some other german friends with their exchange partners and we stayed there about two hours.

Wednesday we started the day like Monday; with lessons in school. In the first lesson Hannah, Brianna and me were in a physical lesson where the teacher gave us the exercise to build

a ball which was not very easy. In the second lesson we went with Joel, David and our exchange partners to math. It was very funny there because we had to do exercises which we made one year ago, so we were the fastest. Then, we went outside to play cricket and hockey.

After the sports, we took the bus to Saffron Walden where we had to do a rallye. My group was the winner. In the evening Leoni and Jessica came to us again and we spend the rest of the day with them.

On this day we drove with the train to London, again without our exchange partners. In London we made a sightseeing tour. First we went tot he British Museum where

we stayed for an hour. After that we went to Covent Garden. It was very full in London but I think it is normal in big cities. In addition we went to the Buckingham Palace. Happily the queen was there because we saw the Union Jack.

Furthermore we visited the Big Ben and at the end the London Eye with which we were not able to drive anymore because we spend to much time at the Buckingham Palace.

After the time in London which was absolutely cool and awesome, Nadja's mom picked us up from the train station and drove us home where we met Leoni and Jessica the third time this week.

That was the last day of our project. We had to pack our suitcases and bring them to school. In school we had an evaluation, like the same progress we made in Germany. After this, we went out to the bus and had to say goodbye to our exchange partners. The photo at the top is one of the last moments we could spend with Nadja. Then, we really had to say goodbye. Some exchange partners had to say goodbye forever but Brianna and me will visit Nadja and her family in the summer vacations. I am very happy I had the chance to be a part of the project and I will never forget the moments we spend together in this group.

Sunday (the First day in Germany) I picked up my exchange partner and a good friend of me to go to Space jump
It was really fun and after that we was going at my house and we three talked and listened to music

Monday: Monday we did a rally of our town at school it wasn't as exciting as Sunday buy my exchange partner was really interest on it. After that we played ultimate frisbee and that was really fun. We gone home and ate typical food of Germany but he didn't liked all 😞

Tuesday: At Tuesday we were going at a sport center to meet all people from the Netherlands and Spain. We were skating on ice with a cours to learn a few things and we were playing floor football. After this we were driving at home and we met us all at Eric's house and we did a little party only to relax.

Wednesdays: At Wednesdays we were at "Aachen" and we did a tour with a tour guide. After this we were driving at home and ate slefmade pizza. (Wasn'ta long day for us)

Thursday: Thursday we were going at "köln" and this was excited. After this we were going another one to Eric's house and we relaxed there.

Friday: Friday my exchange partner must sadly go back to England. So it was a bad day for us all.

All in all I loved the exchange because every day I met new people and I talked to them.
