

## Disclaimer - RISKS

### **Risks associated with trading electronically**

Before you engage in transactions using an electronic system, you should carefully review the rules and regulations of the exchanges offering the system and/or listing the instruments you intend to trade. Online trading has inherent risk due to system response and access times that may vary due to market conditions, system performance, and other factors. You should understand these and additional risks before trading.

### **Risks associated with trading the stock market, trading ETF's, forex, futures, options and any other securities**

All opinions, news, research, analyses, prices, or other information offered by JS-TechTrading or any of its affiliates are provided in terms of general market commentary. They do not constitute investment advice. JS-TechTrading or any of its affiliates do not accept liability for any loss or damage, including without limitation any loss of profit, which may arise directly or indirectly from use of or reliance on aforementioned opinions, news, research, analyses, prices, or other information offered by JS-TechTrading or any of its affiliates.

All investments involve risk, and the past performance of a security, industry, sector, market, financial product, trading strategy, or individual's trading does not guarantee future results or returns. Investors are fully responsible for any investment decisions they make. Such decisions should be based solely on an evaluation of their financial circumstances, investment objectives, risk tolerance, and liquidity needs.

Leverage allows traders the ability to enter into a position worth many times the account value with a relatively small amount of money. This leverage can work with you as well as against you. Even though the markets offer traders the ability to use a high degree of leverage, trading with high leverage may increase the losses suffered. Please use caution when using leverage in trading or investing.

Past performance is not indicative of future results. You acknowledge and agree that no promise or guarantee of success or profitability has been made between you and JS-TechTrading or any of its affiliates. Testimonials as presented may not be representative of all reasonably comparative users.

To the extent any of our Services involves a model portfolio or an actual portfolio of investments, the model's author chooses such portfolio of investments is in accordance with that author's stated investment strategy. Your actual results may differ from results reported for the portfolio for many reasons, including, without limitation:

- performance results for the portfolio do not reflect actual trading commissions that You may incur;
- performance results for the portfolio do not account for the impact, if any, of certain market factors, such as lack of liquidity, that may affect Your results;
- the investments chosen for the portfolio may be volatile;
- the prices of investments in the portfolio at the point in time You begin subscribing to the Premium Service may be higher than such prices at the time such investments were chosen for inclusion in the portfolio;
- You may not have the capital to trade as frequently as the portfolio;
- the size and timing of a subscriber's purchase or sale of a stock may affect the price of the stock.
