size 38cm x 53cm weight 268g

Made by Japanese synthetic fiber. Developed the light, the strong and the ecological bag. Knitting by SHIMASEIKI knitting machine. Sawing by skilled craftworker. From material to product, Completely MADE IN JAPAN.

Characteristics of recycled chips made in Japan

—Overwhelming transparent chips—

⇒ Realizes fabric whiteness and dyed color as close to virgin yarn as possible even the recycled yarn

—the chip with few impurities—

⇒ We can provide high-quality, fine-count (20D, 30D, 50D) and high-count recycled yarn. ⇒ The frequency of filter replacement in spinning process is small

WHAT CHORI PRESENTS
