Here are some statements about our songs (curators, media, etc.):

Edgar rated it ★ 4

Cool rock song I like it, some Alice in Chains vibes. I love the production and the chord progression.

Great intro riff. Sets the stage for the listener than this track is going to kick their ass. Vocals are solid, as is the production. Good old -fashioned rock and roll! We need more of this. I'll absolutely add to my trial playlist. Welcome to NAS!

Surgente rated it ★ 5

"Now" sounds great! I like the process that the voice has. Lyrics are dark, work perfectly with the music, which is powerfull and dark! Welcome in Twisted Rose!

I loved the rhythm because it is very vivid and catchy. Instrumental accompaniments sound very professional and talented. Lyrics are relatively easy to understand for a non-native English speaker like me and that's something to be proud of because it is not the common rule among songs of this genre. The vocalist delivers a vibrant performance that is full of confidence. I really enjoyed listening to it!
